Dear President Boren,

I write to follow up to say that I'm attempting to schedule a meeting with Federal Highway ,ODOT and ACOG so we can to discuss this further. I hope to secure everyone's availability for a meeting to occur within days. I will advise your office accordingly.

The City Council will be in workshop session next Tuesday, August 20, to discuss the West Lindsey project. The meeting starts at 5:30pm here at City Hall. I would like to invite you to attend as we continue our discussion about how to transform the Lindsey corridor.

Thank you again for providing Dan Burden as a resource to our community in the recent months.

Sincerely,

Steve Lewis
