It was requested to be on the agenda by Andrew Sartain, a board member. This was after many emails from Casey Holcomb. James Chappell has been invited and will attend.

Please give me a call and I will explain more in depth.

Thanks.

Subject: Meeting request with Council liaisons

Mayor Miller-

I hope you are well. Andy and I would like to request a meeting with you and the SW Council liaisons anytime after our committee meeting on the 31st.

We hope to have some decisions on SW capital projects after our meeting on the 31st. We feel that would be a good time for the Chairs to sit down with the Council representatives to discuss what has been accomplished thus far in our process, evaluate consensus, and plans for our future work.

We thought we would reach out to you now to give everyone some time to get a date and time scheduled.

Thanks so much.

Subject: Water' Worth Proclamation on July 11

Lynne-

I wanted to let you know that I will be out of town on the 11th when council accepts the Water's Worth Proclamation. I will be leaving the acceptance responsibilities in the very capable hands of Matthew Rom. I am actually out of town for both council meetings in July, but didn't want to skip the proclamation altogether. After all, it's not about me, it's about the message. I apologize for not attending, but will be with my dad on both dates. We are getting to take him on a vacation on the 19th once his radiation is complete. I will not miss a beat regarding the Stormwater committee though. Thanks for understanding. Take Care.

Here is what we have, although we have done a lot of research since then to find out what Norman has accomplished since these documents were created. We are still sharing that information and have yet to create a new document. That is our end goal. The new document will provide an update as to what has been accomplished and we will implement new goals...before it gets to council. As you might imagine, it's a very slow process and we don't anticipate it being completed until mid to late fall. We can discuss more on Friday.

As requested, attached are several items associated with the U.S. Mayor's Climate Protection Agreement. ECAB was tasked with making recommendations to implement the agreement. These recommendations were passed on to the Mayor and Council in 2007. ECAB also revisited this with a resolution in February 2009.

> Here is one that I was sent. I have received links to several. I think they are all part of the Democratic Mayors Climate group. This in itself presents some problems in a town where the Mayor is a non-partisan position. I also have only read main points of the Paris Climate agreement and don't know what we are committing ourselves to and actually think it should be a Council resolution if we do anything. I was immediately reminded of the meeting with the Sierra Club and right now I can't locate that resolution done on the climate when Haralson was here. Lynne

Shawn- thank you so much. I will read the report and provide feedback shortly.

Regarding a meeting this week, I am available, if I can call in for a conference call. I am scheduled to be out of town until this weekend at least. But I am happy to call in at any time that is best for all if you provide the call in details. I hope that will suffice with short notice.

Thanks so much.

Good Afternoon, Amanda and Andy:

I hope your Memorial Day weekend was restful. Please find attached the final draft report from Freese & Nichols regarding Phase 1 of the Stormwater Funding Analysis. The Committee meeting was held on Monday, May 15, 2017. The final draft report was submitted by F&N to city staff on the afternoon of Friday, May 26, 2017. Carrie and I have reviewed the report with Mayor Miller and City Manager Lewis. I find it to be accurate and helpful. I welcome your input.

Mayor Miller has suggested a brief meeting with you this week on Thursday afternoon or Friday any time to discuss the report and next steps. Staff has solicited from F&N a new scope and fee for the revised Phase 2, should Council choose to proceed with same at their next meeting on June 13, 2017. When that decision is made by Council, staff will be prepared to facilitate the next meeting with the Committee during the week of June 19, 2017 to discuss a Capital Project Bond Issue if you wish to proceed in that direction.

Thanks so much. I look forward to your feedback. If I can be of further service, please do not hesitate to ask. Have a great week.

Subject: Re: Follow Up on Stormwater

I am in total agreement with Andy. I will admit, I was a big advocate for hiring them, and I think they or another group could absolutely help us with the public side of things further down the road, but I didn't feel they provided the assistance I was hoping for, at this stage anyway.

Andy's suggestions at the end of the meeting to have different sessions on capital projects, water quality, and maintenance/ flooding are so Norman specific I would anticipate staff having to have a huge role anyway.

So, I absolutely think the committee has a lot more work to do, but I do feel confident that we can do it with our very talented and capable staff for the moment.

Thank you for your time.

Amanda

On May 17, 2017, at 1:32 PM, Andy Sherrer <ASherrer@rbt.com> wrote:

Hello All –

As a follow up to our Stormwater meeting on Monday, I believe the Stormwater Committee will require more time to effectively iron out the details that will be needed to provide a politically appropriate proposal to Council.

Ideally, I would ask that the Council provide for the Committee to move forward with staff only over the next few meetings. Then, potentially have Freese & Nichols (or an alternative) provide assistance on the finishing touches of the plan and provide assistance in appropriately disseminating the information to the community at large. I believe the consultant will provide the most meaningful assistance at the end of the Committee process, when the need for an independent party will be most valued. Please note these are my thoughts only and I am open to Amanda (cc'd in this email) and to each of your thoughts should you feel another approach should also be considered.

Thank you again for your thoughts and time as we move forward on finding a solution for Norman.

Andy
